

IPC144 S1A Array Practice

1- Array Manipulation

In this question you develop a C code capable of doing array manipulation. Your program will have the following menu. This code should be completely modular so that for each of the menu options (except for probably a couple of them) a function should be called. The array should be able to hold decimal values.

- 1- Enter the size of the array
- 2- Enter the array elements
- 3- Sort the array
- 4- Find a number within the array
- 5- Print the array
- 6- Reverse print the array
- 7- Quit

A sample run of the program is as follows:

- 1- Enter the size of the array
 - 2- Enter the array elements
 - 3- Sort the array
 - 4- Find a number within the array
 - 5- Print the array
 - 6- Reverse print the array
 - 7- Quit
- Please enter your choice: **1**

What is the size of your array (1-20)? **8**
Array size set

- 1- Enter the size of the array
- 2- Enter the array elements
- 3- Sort the array
- 4- Find a number within the array
- 5- Print the array
- 6- Reverse print the array
- 7- Quit

Please enter your choice: **2**
Enter array element 1: **0**
Enter array element 2: **-2**
Enter array element 3: **7**
Enter array element 4: **4**
Enter array element 5: **3.5**

Enter array element 6: 9.4
Enter array element 7: 1.9
Enter array element 8: 202
Array elements have been received

- 1- Enter the size of the array
- 2- Enter the array elements
- 3- Sort the array
- 4- Find a number within the array
- 5- Print the array
- 6- Reverse print the array
- 7- Quit

Please enter your choice: 3
Sorting the array.

Please choose Ascending/Descending (A/D)? A
Array sorted (Ascending)
-2 0 1.9 3.5 4 7 9.4 202

- 1- Enter the size of the array
- 2- Enter the array elements
- 3- Sort the array
- 4- Find a number within the array
- 5- Print the array
- 6- Reverse print the array
- 7- Quit

Please enter your choice: 4
Please enter a number to be searched in the array: 7
7 was found at the position 6 in the array

- 1- Enter the size of the array
- 2- Enter the array elements
- 3- Sort the array
- 4- Find a number within the array
- 5- Print the array
- 6- Reverse print the array
- 7- Quit

Please enter your choice: 5
Printing the array
-2 0 1.9 3.5 4 7 9.4 202

- 1- Enter the size of the array
- 2- Enter the array elements
- 3- Sort the array

- 4- Find a number within the array
- 5- Print the array
- 6- Reverse print the array
- 7- Quit

Please enter your choice: 6

Reverse printing the array

202 9.4 7 4 3.5 1.9 0 -2

- 1- Enter the size of the array
- 2- Enter the array elements
- 3- Sort the array
- 4- Find a number within the array
- 5- Print the array
- 6- Reverse print the array
- 7- Quit

Please enter your choice: 7

Thanks and bye!
